# 2018 MS-ISAC CYBERSECURITY CALENDAR

Think Before

you

Type...

Stop Cyberbullying.

@unknown

*National Cyber  
Awareness Poster  
Contest Winner:  
Chloe, Grade 7,  
Texas*

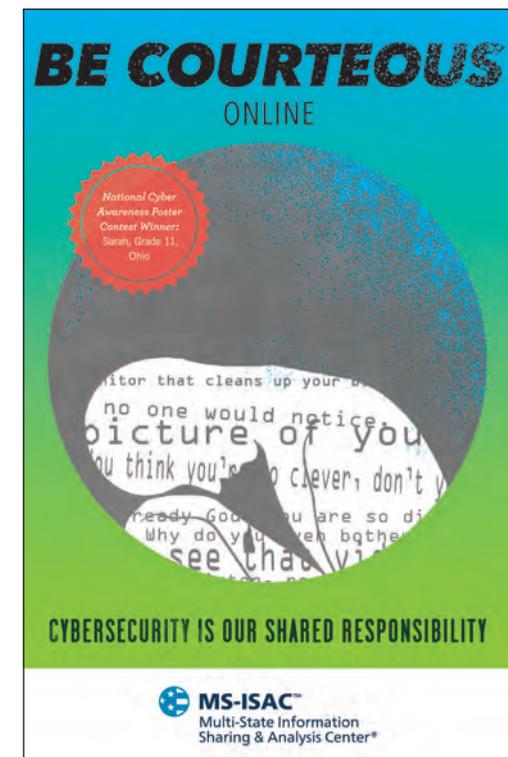

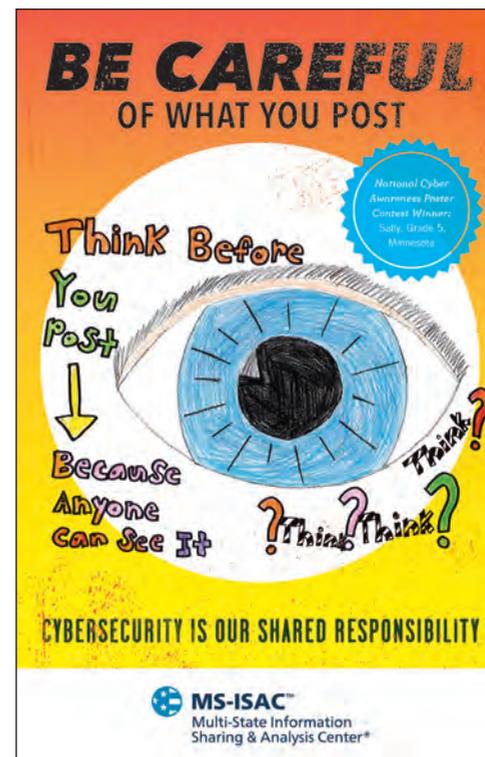

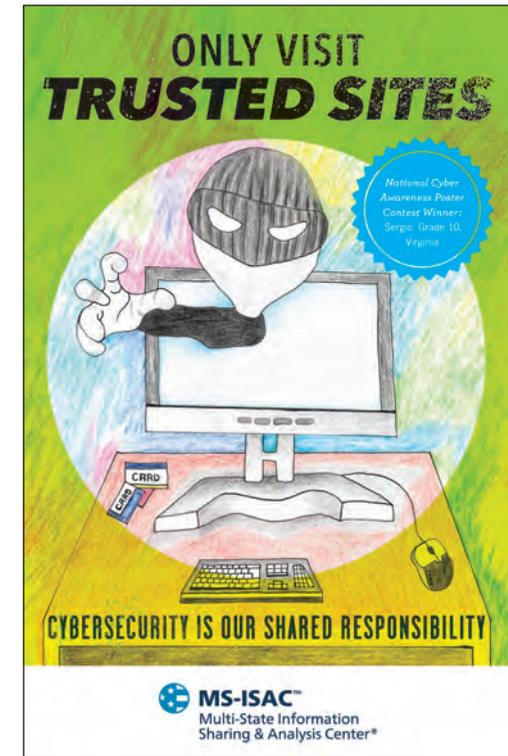

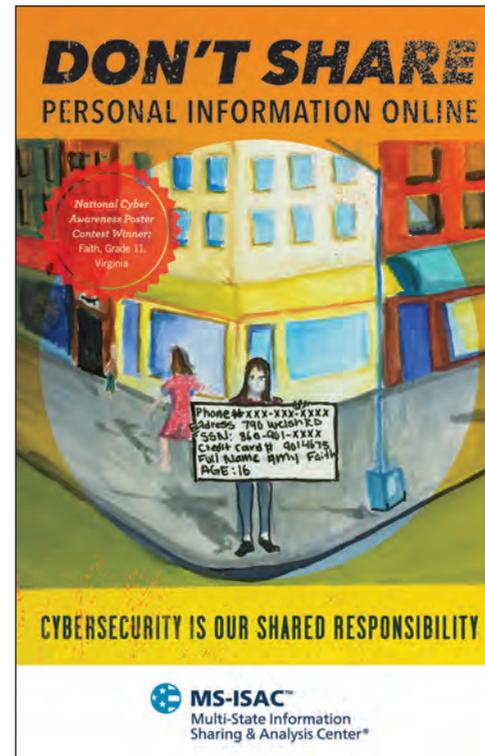

The Multi-State Information Sharing and Analysis Center develops and delivers the Cybersecurity Awareness Toolkit to all 50 states, the District of Columbia, U.S. Territories, and thousands of local governments across the nation. Our goal is to provide necessary information through our materials that will improve everyone's cybersecurity posture. Thank you to all the participants and national poster contest winners!

This calendar's artwork was developed by grade K-12 students who participated in the 2016/2017 MS-ISAC National Cybersecurity Poster Contest.

The 2018 Cybersecurity calendar has been developed and distributed for educational and non-commercial purposes only. Copies and reproductions of this content, in whole or in part, may only be distributed, reproduced or transmitted for educational and non-commercial purposes. Copyright language and distribution restrictions must be included on all reproductions whether electronic or hard copy.

If you are a grade K-12 student, a teacher, an administrator, or know any of those three, don't forget that the 2017/2018 Poster Contest will be kicking off on September 25, 2017!

Your artwork could be featured in the 2019 MS-ISAC calendar! For more information on the contest, contact the MS-ISAC at [info@msisac.org](mailto:info@msisac.org), or call 518-880-0699

# Where Have You Been?

## 5 Digital Footprint Tips

Choose your pictures before posting them

Always remember to log out after you are finished with a website

Never share your passwords and don't change it too often

Never trash talk or say mean and bad words

Tell an adult immediately if you see something that makes you feel uncomfortable

*National Cyber Awareness Poster Contest Winner:  
Yu Wei, Grade 4,  
New York*

# FEBRUARY 2018

**TAX SEASON IS HERE:** Avoid IRS Impersonators. The IRS will not call you with threats of jail or lawsuits. The IRS will not send you an unsolicited email suggesting you have a refund or that you need to update your account. The IRS will not request any sensitive information online. These are all scams, and they are persistent. Don't fall for them.

**SPRING CLEANING:** *It is important to erase your personal information from old computers before you dispose of them. Simply reformatting a hard drive or reinstalling the operating system does not guarantee the old data is unreadable. Physically destroy the hard drive or use a special “wipe” program.*

# APRIL 2018

**MYTH:** "I don't have anything a hacker would want". Yes, you do. Hackers want to control your PC to send spam, distribute malware, or help launch a denial of service attack. Hackers want your information to use for identity theft and fraud. Most attacks are automated. Hackers simply seek out and compromise vulnerable systems.

Social networking sites (e.g., Facebook®, Youtube®) are used widely, but, we must learn how to be safe on such sites. While these sites can increase your circle of friends, they also can increase your exposure to people with less-than-friendly intentions. Learn how to help your kids - and other family members - socialize online safely.

# MOTS

# STOP

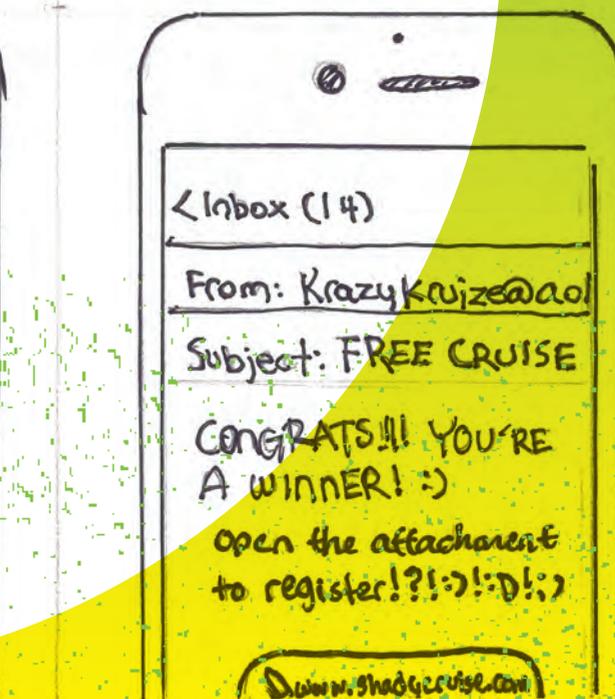

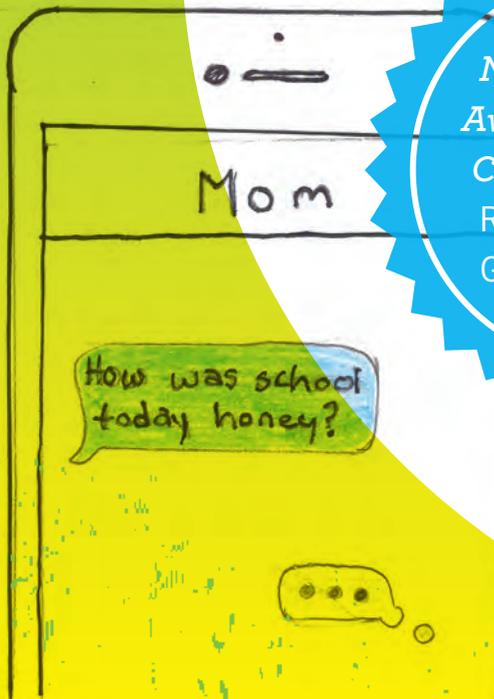

Nothin to worry about. It's just your mommy asking about your day. Feel free to reply.

Be careful before you enter personal information. You should ask a parent before entering your birthday.

STOP! This is probably a dangerous email. Whatever you do, don't open the link. Tell an adult.

National Cyber Awareness Poster Contest Winner: Rachel and Jade, Grade 7, Virginia

# JUNE 2018

*When you post that you're on vacation or when you "check in" to your favorite meeting place that tells others not only where you are, but also that you're not home. Your friends aren't the only ones who'd like to know where you are. Thieves and stalkers do too. Resist the urge to tell all!*

**PROTECT YOUR CHILDREN ONLINE:** *Keep your computer in a central and open location in your home and be aware of other computers your child may be using. Discuss and set guidelines and rules for computer use. Familiarize yourself with your child's online activities and maintain a dialogue with them about what applications they are using. Consider using software that allows you to monitor their email and web traffic.*

New Jersey*

# OCTOBER 2018

**WATCH OUT FOR MONSTERS:** Cyberbullying refers to the growing practice of using technology to harass or bully someone else. Cyberbullying can range in severity from cruel or embarrassing rumors, to threats, harassment, or stalking. It can affect any age group; however, teenagers and young adults are common victims.

# DECEMBER 2018

*This is the season for receiving unexpected packages in the mail. Scammers know this and can send realistic-looking delivery failure notifications via email for deliveries that never even took place. These notification emails often ask you to reveal personal identification information that is then used for malicious purposes. Head to your local post office or call the parcel delivery service to verify the delivery before you hand over information on the Internet.*
