2019 MS-ISAC® CYBERSECURITY CALENDAR

Do You Really Know Who You Are Talking To Online?

*National Cyber
Awareness Poster
Contest Winner:
Sergio, Grade 11,
Virginia*

The Multi-State Information Sharing and Analysis Center® (MS-ISAC®) develops and delivers the Cybersecurity Awareness Toolkit materials to all 50 U.S. States, the District of Columbia, Territories, Tribes, and many local governments across the nation. Through our Toolkit materials, we provide the necessary information to improve our nation's cyber security posture. The Cybersecurity Calendar is one way to increase cybersecurity awareness to our constituents.

This calendar's artwork was developed by grade K-12 students who participated in the 2017/2018 MS-ISAC National Cybersecurity Poster Contest. Winners of the Poster Contest become the subject matter artwork for the Calendar. Thanks to all the participants and national poster contest winners!

If you're a grade K-12 student, teacher, or administrator, don't forget to mark your calendar for the next Poster Contest. The Poster Contest will be kicking off **September 26, 2019!** Poster Contest winners will be featured in the 2020 MS-ISAC calendar!

Please visit <https://www.cisecurity.org/ms-isac/> for more information on the 2018-2019 MS-ISAC National Cybersecurity Poster Contest guidelines. For questions, please email us at contest@cisecurity.org or call **518-880-0699**.

TAX SEASON IS HERE: Avoid IRS Impersonators. The IRS will not call you with threats of jail or lawsuits. The IRS will not send you an unsolicited email suggesting you have a refund or that you need to update your account. The IRS will not request any sensitive information online. These are all scams, and they are persistent. Don't fall for them.

SPRING CLEANING: *It is important to erase your personal information from old computers before you dispose of them. Simply reformatting a hard drive or reinstalling the operating system does not guarantee the old data is unreadable. Physically destroy the hard drive or use a special "wipe" program.*

PREDATORS

(DO NOT Be PREY!)

APRIL 2019

MYTH: "I don't have anything a hacker would want". Yes, you do. Hackers want to control your PC to send spam, distribute malware, or help launch a denial of service attack. Hackers want your information to use for identity theft and fraud. Most attacks are automated. Hackers simply seek out and compromise vulnerable systems.

Keep your personal information to yourself online.

MAY 2019

Social networking sites (e.g., Facebook®, Youtube®) are used widely, but, we must learn how to be safe on such sites. While these sites can increase your circle of friends, they also can increase your exposure to people with less-than-friendly intentions. Learn how to help your kids – and other family members – socialize online safely.

JUNE 2019

REMINDER: When you post that you're on vacation or when you "check in" to your favorite meeting place, that tells others not only where you are, but also that you're not home. Your friends aren't the only ones who'd like to know where you are. Thieves and stalkers do too. Resist the urge to tell all!

AUGUST 2019

PROTECT YOUR CHILDREN ONLINE: *Keep your computer in a central and open location in your home and be aware of other computers your child may be using. Discuss and set guidelines and rules for computer use. Familiarize yourself with your child's online activities and maintain a dialogue with them about what applications they are using. Consider using software that allows you to monitor their email and web traffic.*

STAY SAFE ONLINE

OCTOBER 2019

WATCH OUT FOR MONSTERS: Cyberbullying refers to the growing practice of using technology to harass or bully someone else. Cyberbullying can range in severity from cruel or embarrassing rumors, to threats, harassment, or stalking. It can affect any age group; however, teenagers and young adults are common victims.

DECEMBER 2019

This is the season for receiving unexpected packages in the mail. Scammers know this and can send realistic-looking delivery failure notifications via email for deliveries that never even took place. These notification emails often ask you to reveal personal identification information that is then used for malicious purposes. Head to your local post office or call the parcel delivery service to verify the delivery before you hand over information on the Internet.
