Angelo Marcotullio
Chief Information Officer

Angelo Marcotullio is a technology specialist with more than 25 years of experience delivering technology solutions from concept to completion. As Chief Information Officer, Angelo is responsible for the delivery of innovative, reliable and secure applications that support and enhance CIS' global mission. In addition to managing daily technology operations, Angelo provides strategic planning for a fast-growing company globally recognized as a leader in cybersecurity.

Prior to joining CIS in 2016, Angelo served as Principal Consultant at his own technology firm leading information technology projects in multiple industries including state and federal government, healthcare, finance and manufacturing. Angelo obtained Bachelor and Master degrees from Stony Brook University.
